SOLUTIONS TO RECESS CRESTRON DRAPERY TRACKS

## DESIGNED TO DISAPPEAR

Blindspace® Reese Tracks is a perfect fit solution to recess manual and electric curtain tracks. The track and end set are installed flush with the ceiling during construction to form a cavity matching the drapery system and can be painted to match the ceiling. Standard curved sections in various radius are available to fit corners, curved walls, bay windows and other applications. When curtain tracks are installed, the result is a minimalist design where curtain tracks fully blend in, flush with the ceiling.
