

Modular M Series

DESIGNED TO DISAPPEAR

M Series is a custom concealment box with black anodized interior to minimize light transmission and external faces powder coated to specified RAL color. The box is installed during construction with the space accessible for shade installation when the room is completed.

It features the patented Safety Hinge that secures the cover in place and can be installed in any direction, allowing for side boxes to hide shade side channels or guide wires. Popular in floor-to-ceiling windows and sliding doors, M Series can be installed to future-proof buildings to have the option to install concealed shades in the future.

Description

Concealment system to hide roller shades or to future-proof windows for installation of shades, with safety hinge that secures the cover in place.

Material & Finish

Aluminium, EN 6063 T6
Head box SM16 black anodized
Covers Powder coated white RAL9003
Powder coated to specific RAL color

FEATURES

Seamless appearance after painting

Plaster is feathered over skim coat flanges to hide the box leaving only a thin hairline between the ceiling and the Blindspace® cover.

Cover painted to match window or ceiling

The cover can be provided in specific RAL colour or painted at site with primer and emulsion paint, to match window or ceiling.

Safety hinge securing the cover in place

The safety hinge ensure that the cover is not falling to the floor if accidentally opened.

Cut to finished length, maximum 5m

Blindspace boxes and covers are supplied by manufacturer cut to finished length or in 5m lengths. Splice pins and plates are supplied to align boxes for lengths longer than 5m.

M100x100 with side cover and skim coat flange.

M100x100 with side cover and skim coat flange.

M100x100 with skim coat flanges on both sides.

M130x130 with M130x70 side boxes. Dual skim flanges.
