

DESIGNED TO DISAPPEAR

Tracktrim® by Blindspace is a perfect fit solution to recess manual and electric curtain tracks. The track and end set are installed flush with the ceiling during construction to form a cavity matching the drapery system and can be painted to match the ceiling. Standard curved sections are available to fit corners, curved walls, bay windows and other applications. When curtain tracks are installed, the result is a minimalist design where curtain tracks fully blend in, flush with the ceiling.

Description

Solutions to recess manual and electric electric curtain tracks and end sets, with no visible bracketry.

Product Reference

Tracks: TT1F
End-sets: TTLMB1F/TTLRB1F
Fixing Bracket: TTL1
Curve sections: TTCR508
Example: TT1F with TTLMB1F & TTLRB1F

Finish

Material

Tracks in Aluminium, EN 6060 T66 End-sets & curves in Plastic POM Polymer White to be plastered in and decorated at site to match ceiling.

Fixing

Anchoring with countersink screws through profile and flanges every 200mm. Finished plaster level flush with chamfered edge and ceiling.

FEATURES

Centered curtain tracks with no visible fixing brackets

In contrast to solutions using a wedge along the side of the curtain track, REESE tracks are fixed through the curtain track for minimum visual impact.

Perfect-fit end-set to match motor and return ends

End sets are designed and manufactured to perfecly fit with motor and belt return ends.

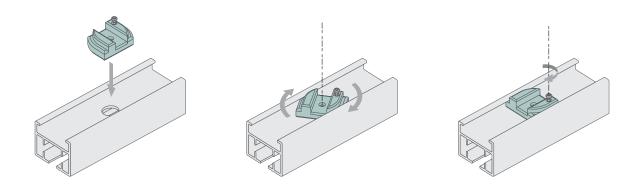

Seamless appearance after painting

Plaster is feathered overskim coatflanges to hide the track and end-set, leaving only an open cavity for installation of curtain system.

Splice Pins to connect different profiles

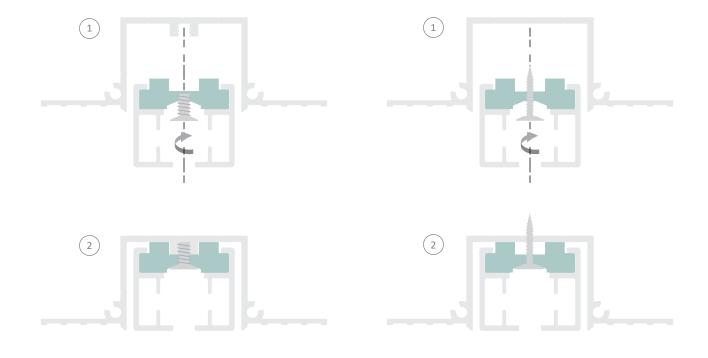

Splice Pins are used to connect the endsets to the main Tracktrim profile and also to the different curved sections.
