

# S SERIES

STANDARD FOR HIDING ROLLER BLINDS

## DESIGNED TO DISAPPEAR

Blindspace® S Series is a concealment box made to hide roller blinds with minimal visual impact. The box is installed during construction. It features the patented

Blindspace® Safety Hinge that secures the cover in place and can be installed in any direction, allowing for side boxes to hide blind side channels or guide wires. Popular in floor-to-ceiling windows and sliding doors, S Series can be installed to future-proof buildings to have the option for later installation of concealed blinds.

Description

Concealment system to hide roller blinds or to future-proof windows for installation of blinds, with safety hinge that secures the cover in place.

Material & Finish

Aluminium, EN 6063 T6  
Powder coated white RAL9016, 30% gloss

FEATURES

Seamless appearance after painting

Plaster is feathered over skim coat flanges to hide the box leaving only a thin hairline between the ceiling and the Blindspace® cover.

Cover painted to match window or ceiling

The cover can be provided in specific RAL color or painted at site with primer and emulsion paint, to match window or ceiling.

Safety hinge securing the cover in place

The safety hinge can be installed on either side of the box and ensure that the cover is not falling to the floor if accidentally opened.

Cut to finished length, maximum 6m

Blindspace boxes and covers are supplied by manufacturer cut to finished length or in 3m or 6m lengths. Splice pins and plates are supplied to align multiple boxes and covers.
