

Modular M Series

DESIGNED TO DISAPPEAR

M Series is a fully modular custom concealment box with a black anodized interior that minimizes light transmission. This design is made to be 100% modular so you can make on site changes to your box, adapting to any of your clients needs. Keep parts in stock so you always have the right solution.

It features the patented Safety Hinge that secures the cover in place and can be installed in any direction, allowing for side boxes to hide shade side channels or guide wires. M Series can be installed to future-proof buildings to have the option to install concealed shades in the future.

Description

Concealment system to hide roller shades or to future-proof windows for installation of shades, with Safety Hinge that secures the cover in place.

Material & Finish

Aluminium, EN 6063 T6
Headbox SM16 black anodized
Covers powder coated white

FEATURES

Seamless appearance after painting

Plaster is feathered over skim-coat flanges to hide the box, leaving only a thin hairline between the ceiling and the Blindspace® cover.

Cover painted to match windows or ceilings

The cover can be provided in specific RAL color or painted on site with primer and emulsion paint to match windows or ceilings.

Safety Hinges secure the cover in place

The Safety Hinges ensure that the cover will not fall to the floor if opened in the ceiling.

Cut to finished length, maximum 5m

Blindspace boxes and covers are supplied by manufacturer, cut to finished length, or in 5m lengths. Splice Pins and plates are supplied to align boxes for lengths longer than 5m.

M100x100 with Side Cover and Skim Coat Flange

M100x100 with Side Cover and Skim Coat Flange

M100x100 with Skim Coat Flanges on both sides
